THE UNIVERSITY OF CHICAGO

PHYSICS DEPARTMENT
5301 S. DICKINSON AVE.
CHICAGO, ILL. 60637

OFFICE OF THE DEAN

CHICAGO, ILL.

NEXT MEETING

This will be the Annual General Meeting of the Club, to be held on Thursday, February 16th at 7.45 p.m. at the Royal Society's room in the Tasmanian Museum. After the general business and election of officers for 1967, Mr. David Thomas will give the Presidential Address, his subject being "Bird Migration".

FIELD OUTING

On Saturday February 18th to Clifton Beach - Swimming, middens, conchology and lunch; then to Pipeclay Lagoon or Calvets Lagoon for Bird observation.

Bring a thermos and lunch. Meet at 10.a.m. at the Prince Theatre. Leader - Miss Elizabeth Nichols.

EASTER CAMP

This year's camp will be held at Mount Field National Park, March 24 - 28. Interest in serious study of natural history will be greatly stimulated by the presence of Prof. Jackson and other personnel from the Botany Department of the University. It is likely that groups will be formed for different aspects of work in plant community counts, pond exploration etc. with reviews of the day's work in the big Telopea Hut in the evenings. By this means there should be something of interest for all, besides some worthwhile results to the University.

Amenities in the huts have been improved in the last few years and by Easter may include bottled gaslight in Telopea.

1

However, accommodation is limmited in the huts and it is desirable that bookings should be made as soon as possible with the secretary. Bunks and mattresses are provided in the huts, but bring your own food of course, and warm clothing, for it can be cold. Some cooking utensils, and cutlery are provided, but to be on the safe side bring what you are likely to require. The hiring fee for the huts will depend on the number using them.

A nomination form is printed below so that you can have your nomination completed in good time. Further nomination forms may be obtained from the Secretary.

Kelsey Aves Hon. Secretary.
